Objective: To contribute to a team where I can apply my local economic policy work at community and regional levels.

EDUCATION

University of Bath, UK: *Master of Philosophy (MPhil)* in Economic Social Policy, 2010

Rivier College, New Hampshire, USA: *Master of Arts in Teaching* Secondary Mathematics, 2004

University of Baltimore, Maryland, USA: *Bachelor of Science* in Computer Science, 1993

SKILLS

Research (governance, regulatory frameworks, community dynamics, currency issuance and monetary functions), technical writing, academic analysis and synthesis, public speaking, teaching mathematics and English as a Foreign Language, managing UNIX network servers and websites, network pattern analysis, creative writing

Languages: Native US-English speaker first published in UK-English (Mphil Dissertation in British Library), Fully Fluent in *Spanish* (Mexican and Castilian) and *French* (Hexagon), Conversant in *Turkish* and *Hebrew*: Biblical and Siddur (prayer book), was conversant in Modern Hebrew (1994)

EXPERIENCE

Buyer and Technical Manager:

Local organic restaurant, USA: I am researching automated inventory and ordering systems as I make manual orders, setting up and automating the payroll system, assisting the owner with research and paperwork for various regulatory agencies, updating content on the company website, FaceBook, GooglePlus, Twitter, Yelp and TripAdvisor accounts, organizing events and teaching the owner and staff how to maintain the newly set up user account security, web browser security and backups, which I am still setting up and trouble-shooting, April 2017 to present

Systems Analyst and Interpreter: Math, Spanish and Turkish:

Freelance, Guidel, France, & USA: I researched and modified techniques for teaching mathematics and languages via internet and helped analyze and gave consultation for Unix systems maintenance; I also gave talks (in French) on economic social policy. I still develop strategies for language lessons after analyzing students' problem-solving abilities and learning modalities, provide Windows 10 user account, web browser, proxy, Flash player update and Word and pdf support and training to my landlord, and I also give simultaneous interpretation of shows (*El Ministerio del Tiempo* and *Muhteşem Yüzyıl*) to friends and landlord, in USA, November 2013 to present

Singing Tour Guide:

SHIR Tours (Founder), Washington, DC: Developed and gave English and Spanish language Singing Walking and Step-On Tours based on my research on Black-Jewish Community Cooperation in Washington, DC, January 2010 to September 2013

Adjunct Professor of Mathematics:

Montgomery College, Rockville, Maryland: Researched updated Learning Style strategies, developed algebraic, graphical, numerical, and verbal approaches for working with a variety of functions and their applications, including linear, polynomial, exponential, logarithmic, rational, and radical functions. Analyzed student errors and developed

problem-solving algorithms to help students learn how to learn. Use of MathLab and Blackboard teaching software, August 2011 to May 2012

Site Coordinator, Math and English Tutor, Spanish Interpreter:

Latin American Youth Center, Washington, DC: Directed site (researched new lesson plans, solved problems with parents, supervised other tutors) and planned English and math lessons for children, interpreted for Spanish-speakers, February 2010 to July 2011

Lecturer in Mathematics and History of Economics:

La Universidad Anáhuac, México: Prepared lessons on Differential Calculus, Researched, prepared and gave lessons introducing economic philosophy and history in both Spanish and in English, Fall 2009

ESL Teacher:

Istanbul and Izmir, Turkey: Planned and taught Business and English, 2004 to 2005

Substitute Teacher

NH, MA Public Schools: Replaced mostly math teachers, 2002 to 2004

Math Teacher and Unix Systems Administrator

SERESC, The Brentwood School, Nashua, NH: Taught high school math from basic math to Trigonometry, maintained Unix server, 2001 to 2002

Adjunct Professor

NH Community Technical College, Nashua, NH: CS175 Prepared and taught required course "Introduction To C++", Fall 2001

RECENT TALKS

Talk given at UNM Peace Studies Department, Professor Renee Wolters class: alternative economics and local currencies, Albuquerque, NM, October, 2016

CONTINUING EDUCATION

DC LEARNS Adult Education Training Core Skills Workshop, Foundations of Reading II (with tips for basic mathematics learners), October 2010

NH Teachers of Mathematics Conference, March 2003
